SUMMARY

I am B-Tech student specializing in Computer Science and Engineering with hands-on experience in Python, C and C++. Proficient in data preprocessing, statistical analysis, and visualization using Pandas, NumPy and Matplotlib. Strong analytical and problem-solving abilities with demonstrated experience translating complex data insights into actionable recommendations.

SKILL

Programming : Python(Pandas, Numpy), C++, C

Data Visualization: Matplotlib, Excel, Power BI

Tools & Technologies: Jupyter Notebook, Git, Google Colab, VS Code, Microsoft-office

Soft skills :

Communication | Leadership | Time Management | Presentaion skill | Attention to Detail

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Tulsiramji Gaikwad Patil College of Engineering and Technology, Nagpur, India

CGPA : 9.29 (2027)

Class XII (State Board) | Dr. B. R. Ambedkar College , Hinganghat

58.83 % (2023)

Class X (State Board) | Dr. B. R. Ambedkar School , Hinganghat

93.40 % (2021)

PROJECTS

1.WEBSITE BLOCKER :

- Developed a website blocker using Python by modifying the system host file to restrict access to specific websites during a defined time period.
- Implemented time-based automation using the datetime module to block and unblock website dynamically.
- Utilized file handling and loop control logic to manage real-time updates in the host file for effective website restriction.

2.SMART SHUTDOWN TOOL :

- Developed a GUI-based shutdown application using Python (Tkinter).
 - Implemented features like restart, shutdown, logout, and timed restart.
 - Used system commands (OS module) to control computer operations through buttons.
-

CERTIFICATION AND ACHIEVEMENTS

- Certified in Python
- Certified in C++
- Certified in C
